PROFILE

I'm a full-stack developer who enjoys building efficient, scalable web applications. I love working with TypeScript for front-end and tools like React and Next.js, while also handling the back-end side with Node.js, Express, and databases like MongoDB and PostgreSQL. I've also got experience deploying on AWS and Cloudflare. My focus is on creating responsive, high-performance applications that don't just look good but work flawlessly.

EDUCATION

Shri Ramswaroop Memorial University

Bachelor of Computer Applications

Lucknow, UP

Sep. 2022 – Sep. 2025

Red Rose Senior Secondary School

Intermediate – PCM – 88.6%

Lucknow, UP

April 2021

Red Rose Senior Secondary School

High School – 89.1%

Lucknow, UP

April 2019

PROJECTS

VaultX ([Live Link](#)) / TypeScript, React, Tailwind, PostgreSQL, ExpressJS, JWT, Blockchain

(In Progress)

- A crypto payments platform that will support Bitcoin, Ethereum and Solana payments.
- Frontend is built using Reactjs and Tailwindcss.
- Hosted on AWS EC2.
- Authentication is done through JWT and OAUTH, passwords are hashed before being stored in database.

Portfolio ([Live Link](#)) / TypeScript, React, TailwindCss, shadcn

Sept 2024 – Sept 2024

- Created my own portfolio website using reactjs and typescript.
- Hosted it on AWS EC2.

TECHNICAL SKILLS

Languages: TypeScript, Java, C/C++

Frameworks: Next.js, TailwindCSS, Express.js

Developer Tools: Docker, Amazon Web Services, Git.
